

Amith kuppili

Software Engineer

+91 8179223135 — amithkuppili@gmail.com — LinkedIn — GitHub

Summary

B.Tech graduate with hands-on experience in Python-based automation, REST API integration, and AI-driven workflow development. Experienced in building scalable backend systems and optimizing processes through scripting and intelligent automation

Skills

Languages: Python, SQL, Java

ML & Data: NumPy, Pandas, Scikit-learn, Time-Series Analysis

Automation AI: REST APIs, AI Tool Integration, Prompt Engineering, Workflow Automation

Software Fundamentals: Data Structures, Algorithms, Debugging, Unit Testing

Projects

AI Automation Workflow for Video Content Generation

- **Description:** Automated stock data ingestion, model inference, and API-based .
- **Tech Stack:** n8n, REST APIs, Webhooks, AI Tools, JSON-based Workflows, Cloud Integrations
- **Outcome:** Enabled fully automated video production with minimal human intervention.

Stock Price Movement Prediction System (Hybrid Model)

- **Description:** Built an end-to-end ML system to predict stock price movement using historical time-series data.
- **Tech Stack:** Python, NumPy, Pandas, Hybrid Echo State Network, Scikit-learn, FastAPI, Docker
- **Outcome:** Achieved fast training (js per stock) and real-time inference via a scalable API.

Internships

Full Stack Web Development Intern — Slash Mark

Apr 2025 – Jun 2025

- Collaborated with clients and internal teams to understand requirements and deliver scalable solutions.
- Took ownership of assigned modules and ensured timely completion.

AI & ML with Data Science Intern — YBI Foundation

Dec 2024 – Feb 2025

- Applied machine learning models on real-world datasets using Python.
- Applied data preprocessing, feature engineering, and model evaluation techniques for predictive tasks.

Education

B.TECH in Electronics and Communication Engineering – Raghu Institute of Technology

CGPA :7.65/10

Expected Graduation: Mar 2026

Certifications

- Developer and Technology Job Simulation — Accenture
- Data Visualisation: Empowering Business with Effective Insights — TATA
- Python for Data Science — IBM
- AI for Beginners — HP Foundation

Achievements

- Participated in Smart India Hackathon (SIH) 2025, contributing to problem-solving and solution design in a competitive national-level hackathon.
