

AMITH KUPPILI

Software Engineer

8179223135 — amithkuppili@gmail.com — LinkedIn — GitHub

Summary

Detail-oriented Data Analyst with strong skills in **SAS, SQL, and Python** for data analysis, reporting, and predictive modelling. Experienced in handling structured datasets, performing statistical analysis, and generating business insights. Passionate about leveraging data to support decision-making in finance and business environments.

Skills

Analytics Tools: SAS (Base SAS, SAS Programming), Python

Database: SQL

Data Analysis: Data Cleaning, Data Manipulation, Statistical Analysis

Libraries: Pandas, NumPy, Scikit-learn

Visualisation: Data Reporting, Dashboards (basic)

Concepts: Time-Series Analysis, Predictive Modelling

Other Tools: Excel, Fast API (basic)

Soft Skills: Analytical Thinking, Problem Solving, Communication

Projects

Real-Time Security Antenna System

- **Description:** Designed a real-time antenna-based monitoring system to improve public and private sector safety.
- **Tech Stack:** Python, IoT Sensors, Signal Processing, Real-Time Data Analysis
- **Outcome:** Enabled proactive incident detection and improved response efficiency.

Stock Price Movement Prediction System (Hybrid Model)

- **Description:** Built an end-to-end ML system to predict stock price movement using historical time-series data
- **Tech Stack:** Python, NumPy, Pandas, Hybrid Echo State Network, Scikit-learn, Fast API, Docker
- **Outcome:** Achieved fast training (15s per stock) and real-time inference via a scalable API.

Internships

Full Stack Web Development Intern — Slash Mark

Apr 2025 – Jun 2025

- Built scalable MERN-based web applications for real-time client projects.
- Developed RESTful APIs and responsive UI components, improving application usability and performance.

AI & ML with Data Science Intern — YBI Foundation

Dec 2024 – Feb 2025

- Applied machine learning models on real-world datasets using Python.
- Applied data preprocessing, feature engineering, and model evaluation techniques for predictive tasks.

Education

B. TECH - Electronics and Communication Engineering

Raghu Institute of Technology

CGPA :7.5/10

June 2022 - Mar 2026

Certifications

- Developer and Technology Job Simulation — Accenture
- Data Visualisation: Empowering Business with Effective Insights — TATA
- Python for Data Science — IBM
- AI for Beginners — HP Foundation

Achievements

Participated in **Smart India Hackathon (SIH) 2025**
